## **Topic for Monday Feb. 12: Our Political System is FAILING America: How We Can Re-Invigorate Our Democracy**

Every day we are faced with fresh evidence of our political system failing us: a seriously divided country with a significant decline of faith in our government; partisanship over policy; failure to address our serious challenges; a lack of trust in our news sources; ... etc.

Don't let the current turmoil fool you; these are not new problems. We have unfortunately been on this trajectory for decades. But it is time we face up to it. It is not a simple problem and solutions won't be simple or fast. But there aren't many more important challenges that we face.

Please join us as we take a hard look at our political system and what we should be doing to get it back working for us. Here are the details:
