

K.S. Bhaskar for Tredyffrin Supervisor, District 3 (West)

Bhaskar was born in India and came to the US as a graduate student. He became a citizen in 1994. He and his wife Jayashree moved to Tredyffrin in 1998, attracted by the high quality of our public schools. They have three sons, all of whom went through T/E schools and graduated from Conestoga High School. Their eldest is an academic in math and computer science, their middle son is a software developer, and their youngest is an automation engineer.

Bhaskar has a Bachelor's degree in Electrical Engineering from the Indian Institute of Technology, a Master's in Computer Science from the University of Nebraska and an MBA from the University of Washington. He spent the early part of his career in software development. He joined Greystone Software in 1995 and became President and co-owner. The company's software is currently used in large banking systems and national scale electronic health records. In 2017, he left to start his own business, YottaDB LLC (<https://yottadb.com>), a local high-tech software business with many international clients.

Bhaskar has enjoyed contributing to our community. For many years he served as an assistant scoutmaster for several Boy Scout troops, teaching the computer merit badge and helping to refurbish salvaged equipment for scouts who needed a home computer. He also helped start a computer science club at Conestoga.

As an engineer, Bhaskar will bring strong problem-solving skills to the job of supervisor. As a small business owner with a background in turning around failing companies, his focus has always been on pragmatic solutions. As a Tredyffrin Supervisor, Bhaskar will strive to find balance and protect our quality of life. He believes we need to keep Tredyffrin a community where our long-time residents, our police and teachers, and our seniors can afford to live.
